2. The following is an examiner's statement of reasons for allowance: Prior art of record either taken individually or in combination with other art fails to teach an adaptor in housing, said adaptor including an ATA disk drive coupling element and at least two fiber channel backplane coupling elements and a programmable switch coupled to said fiber channel backplane coupling elements to control selection of one of at least two paths, wherein at least one of said at least two paths is connected to one of said fiber channel backplane coupling elements, wherein the ATA disk drive is coupled to a fiber channel backplane via a selected one of the at least two paths without physically removing the ATA disk drive from the disk drive housing. Furthermore, prior art fails to teach a serial-to-parallel converter and a parallel-to-serial converter on each of the two respective paths wherein the conversion is from the ATA disk to fiber channel backplane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
